

1:1 Section of Image From METEOR

1 Name the major weather system.

2 Identify the weather features on the image

- A = \_\_\_\_\_ pressure
- B = \_\_\_\_\_ front
- C = \_\_\_\_\_ front
- D = \_\_\_\_\_ sector.

3 What is happening to air along the fronts? Evidence?

4 The winds are blowing clockwise/ anticlockwise and in/out of the low pressure (delete).

5 What cloud types are at E, F, G, H

6 Draw a very simple weather map of the satellite image with fronts, winds, clouds & pressure patterns (use symbols)
